PERSONALISED DESIGN SERVICE

Everyone in life is unique, and we believe that a picture coffin should reflect the individual qualities of the departed. We offer a fully personalised service that lets you create a one off piece of art that celebrates the life of your loved one.

Whether you have specific images or have seen something you would like to incorporate, our dedicated design team are on hand to create a design that is truly personal.

Throughout this catalogue you will find themed examples that you can choose, personalise or just use for inspiration. There are no limits other than your own imagination.

Every one of our picture coffins is FSC certified and completely biodegradable. We do not use any vinyl or 'wrap' in creating the image, so you can rest assured that your choice of coffin will not have any negative impact on the environment.

You can find more information and creative ideas online at:

A PICTURE IS WORTH A THOUSAND WORDS...

Every image tells a story, so it is not surprising that more and more people are opting for a picture coffin when making funeral arrangements. Whether you choose a sporting theme, a landscape or something more abstract, our Reflections® design service will guarantee a picture coffin that is truly personal.

Our picture coffin designs are divided into three types: **catalogue**, **design amendment**, and **bespoke**. More information about the design services we offer are available opposite and on page 5.

Interested in a picture coffin or require a bespoke design? Please contact your Funeral Director and request a Reflections® picture coffin.

Introducing

THE PATHWAY COFFIN

Sitting within the Reflections range, this natural wood, biodegradable coffin allows for a truly unique and personalised send off with each person designing their own section, or each panel marking a different part of the life lost. Nothing before has so beautifully transformed the coffin into a celebration of life. Nothing before has so eloquently enabled that story to be told.

Choose from a range of different coffin frame colours to match any design, and have the panels printed in our new spectacular printed padded fabric (pictured), giving your coffins a comforting tactile finish.

Design your panels

As part of our new Pathway service, we have developed a system where each panel can be designed separately. Whether each panel is designed from a different family member, or designed together using different panels for different periods or pastimes of a persons life, the Pathway service allows you to create any possible outcome with any possible design. Below are some examples;

Lid options

Choose from three different lid options. Our blackboard lid for chalk inscriptions, our whiteboard lid for permanent marker inscriptions, or choose to have the lid covered in a full picture.

Choose your frame

Our standard Pathway frames come in natural wood, black or white. Alternatively, if you didn't want to choose from our standard range, any customised colour can be achieved from the Dulux range. For ease of ordering, colour reference may be made using the Dulux colour chart. See page 23.

Choose your material

Viewing the coffin has never been more comforting. The panels can be printed onto a fabric material which is then padded to elevate it from the frame, giving the design and final finish more emphasise. Alternatively, you can have your panels printed on our FSC certified paper which is fully biodegradable.

FLORAL TRIBUTES

Floral tributes have a long association with funeral arrangements and as such it is not surprising that picture coffins which utilise flowers in their design have become a popular choice. These floral designs offer a softer, more colourful alternative to a traditional wood coffin and can hold special significance. Poppies are well known for their link to remembrance, while daffodils can signify re-birth and renewal. The following pages offer some examples of popular floral coffins, but we can create any design based around the flower of your choosing. For more examples visit: www.picturecoffins.co.uk

All designs are also available as ash caskets or scatter tubes.

**ADDITIONAL
WAYS TO
PERSONALISE**

As an alternative to an engraved nameplate, we can print the name and any additional details onto the coffin itself, making it part of the design. This can be as simple or intricate as desired.

SOMEWHERE SPECIAL

Landscape views and vistas often conjure up very emotive feelings, which resonate with certain periods in peoples' personal history. For this reason a landscape inspired picture coffin can conjure up memories of a loved one's past, perhaps displaying a place that held special meaning for them, or a location where they enjoyed spending time. Our team can recreate panoramas that wrap around the sides of the coffin from photographs supplied; or if it is a well known location, we can source the images on your behalf. SPORTING LIFE

For many of us, sport can become a passionate corner-stone of our lives, manifesting itself in a life long dedication to a particular team. Many of the requests that utilise our personalised service reflect this passion, and sporting and team coffins remain some of our most popular designs. Through flags and motifs we can reference national teams, and in the event of wanting to include a specific club, our designers, wherever possible, can liaise to secure the permission to do so. A military career could be represented by the colours of their regiment accompanied by their badge. Or perhaps a strong fashion sense could be continued with one of our patterned and textured designs. Whatever your requirements, we are happy to create a unique design which compliments your loved one's personality. For more examples visit: www.picturecoffins.co.uk

They can represent journeys, careers, interests and hobbies. If there is a specific vehicle you would like to include on a picture coffin, such as your loved one's car or motorcycle, we would be happy to create a bespoke design. We can also add personal touches to our designs, such as a number plate. For more examples visit:

There are people who's remembrance

passed away. This light shines in our darkest
nights on the road we must follow."

WORDS TO REMEMBER

Many of our customers like to include poetry, readings, song lyrics or their own writing on the coffin design, for a more sentimental and personal touch. They may represent a favourite piece of prose, express an emotion or sentiment that celebrates the life of your loved one. The text can be laid over or combined into any design and can give an additional level of meaning to your personalised picture coffin. We have illustrated a few popular choices on the following pages, but you can add anything you like to almost any image. For more examples visit: www.picturecoffins.co.uk
